

INCREASE PUCK HANDLING

Your rink is, or certainly will be, the centerpiece of your indoor facility, outdoor community space or even your own backyard. For this reason, your success has been the core foundation of what we do. For 30 years, Rink Systems has been family-owned and operated, designing and manufacturing dasher board systems and arena products in our own facility in Albert Lea, Minnesota. Along with our fine products, our service commitment is steadfast in every project in which we are involved.

rink dividers

Aluminum and Foam
